

Shubham Singh Chauhan

Frontend Developer | React.js | Next.js | TypeScript

shubhamchauhan12196@gmail.com | 9540366758 | [linkedin/shubham-chauhan-aaa832397](https://www.linkedin.com/in/shubham-chauhan-aaa832397) | [github/shubhamchauhan639](https://github.com/shubhamchauhan639)

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend & Database: Node.js, Supabase, MongoDB, MySQL, Express.js

Tools: Git, GitHub, Vercel, Jest, React Testing Library, Figma

PROJECTS

DEVLOG

NEXT.JS 14, TYPESCRIPT, TAILWIND CSS, CLERK, SUPABASE, GEMINI API

- Engineered a full-stack developer productivity dashboard using **Next.js 14**, **TypeScript**, **Supabase**, and **Clerk Authentication** for secure user management.
- Designed a custom **GitHub-style contribution heatmap** to visualize **26 weeks** of coding activity without relying on third-party chart libraries.
- Built reusable **custom React Hooks** (**useLogs**, **useStreak**) to calculate coding streaks, weekly hours, productivity metrics, and dashboard analytics.
- Integrated the **Gemini API** through secure **Next.js API Routes** with cached AI responses to generate personalized productivity insights while minimizing unnecessary API requests.

NETFLIX AI

REACT, REDUX TOOLKIT, FIREBASE, TAILWIND CSS, TMDB API, GEMINI API

- Built a Netflix-inspired streaming platform using **React**, **Redux Toolkit**, and **Firebase Authentication** with a responsive user interface.
- Implemented secure authentication with protected routes, persistent user sessions, and centralized state management using Redux Toolkit.
- Integrated the **TMDB API** to dynamically fetch and render trending, popular, top-rated, and now-playing movies.
- Developed an **AI-powered movie recommendation system** using the **Gemini API**, enabling users to discover movies through natural language prompts.

STREAMLY

REACT, REDUX TOOLKIT, TAILWINDCSS, YOUTUBE DATA API

- Developed a YouTube-inspired video streaming platform using **React**, **Redux Toolkit**, and the **YouTube Data API**.
- Implemented a **debounced search system** with Redux-based caching to reduce unnecessary API requests and improve performance.
- Built a scalable **nested comments system** using recursive React components to support deeply threaded discussions.
- Developed a simulated **live chat feature** and modular state management architecture using multiple Redux slices.

FOOD ORDERING APP

REACT, REDUX TOOLKIT, VITE, JEST, REACT TESTING LIBRARY

- Built a responsive food ordering application using **React**, **Redux Toolkit**, and **Vite**.
- Implemented **lazy loading** with **React.lazy** and **Suspense** to load route-based components on demand, reducing the initial bundle size and improving page load performance.
- Developed reusable components including restaurant listings, search functionality, shopping cart, and dynamic menu rendering.

EDUCATION

Bachelor of Computer Applications (BCA)
SRM UNIVERSITY

Delhi, India | 2025
